INTERNAL DRAFT FOR THE THREE COFOUNDERS · 21 OCTOBER 2026

TECHONEST

Where cultures meet on a Paris stage — and the people who make the night get real, fairly paid work.

Vision and project plan · idea stage · nothing with Rebels Collectif is agreed · all figures are estimates

WHY WE ARE MEETING

Four things we should leave this meeting with

1

Understand

One shared picture of the vision: the nights and the network.

2

Challenge

Test the assumptions behind demand, money, law and partners.

3

Share the work

Agree who owns what, how much time each of us can give.

4

Decide the first test

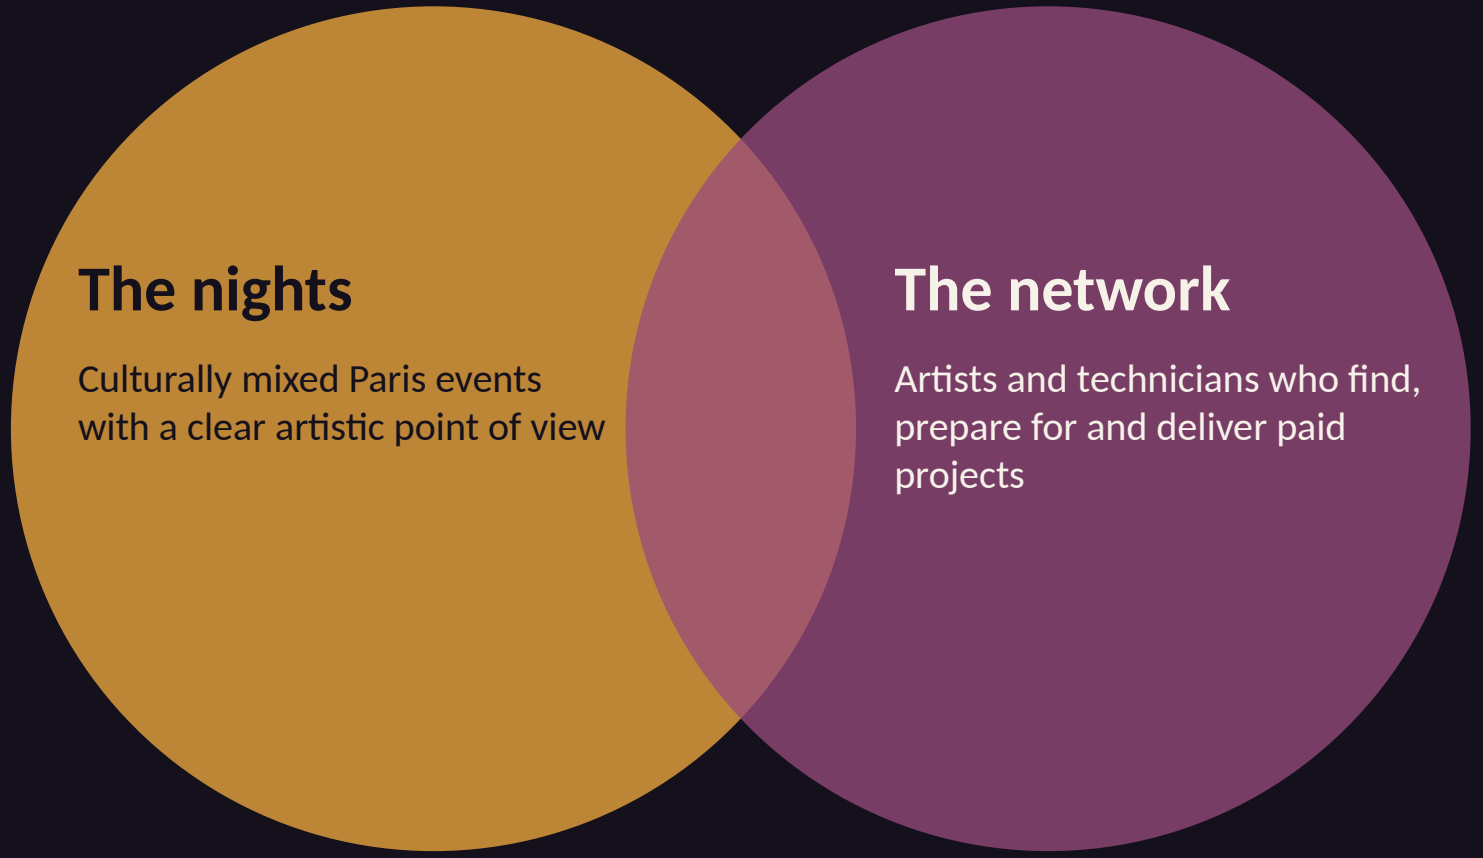

Choose what we check first — before money is committed.

Where we really are

- Idea stage
- No legal structure yet
- No agreement with Rebels
- Three cofounders · roles and time open
- Up to €1,000 of cash

THE IDEA

Two parts that make each other stronger

Paid slots, credits, footage →

← Skills, new acts, their own audiences

The loop is our hypothesis. The pilot tests it on one night.

WHY

Why Techonest should exist, in human terms

Someone in the audience

- Hears a voice and percussion from the Middle East or the Maghreb lead into an Afro-house set — in one night, not three venues.
- Feels the traditions are presented with their artists, not used as decoration.
- Leaves with a reason to come back: a series with a point of view.

Someone behind the stage

- A student technician or early-career musician gets a paid slot, a clear brief and a contract.
- Leaves with credits, footage and feedback they can show to the next employer.
- Joins a network that calls them for the next project.

Hypothesis, not evidence: we believe this mix is under-served in Paris. Nothing has measured it yet.

THE CULTURAL CONCEPT

Traditions meet on stage — they are never the decor

Artists curate

The people who carry a tradition choose its repertoire and how it is shown.

Context, not costume

No generic “world music” styling. Credits and programme notes name who plays what, and where it comes from.

Real collaborations

Crossovers — live percussion over a DJ set — are rehearsed between the artists, not stitched together.

Fair pay is part of the art

On paid nights everyone is paid. A team policy that goes further than the legal minimum.

CONCEPT — NO ACTS OR VENUE BOOKED

One illustrative night: from a live voice to the dance floor

Doors

Visual identity on the walls; crew already filming

Live set

Voice and percussion, Middle Eastern and North African repertoire

Crossover

Live percussion over a DJ set, rehearsed together

DJ programme

Afro-house into electronic

Film and credits

Edit, publish, credit every crew member

Filming and visual identity run all night: the footage promotes the next night and becomes every crew member’s portfolio.

Who comes first — and what would prove they will pay

Possible first audiences (hypotheses)

- Rebels' house and Afro-house crowd — if Rebels agrees to promote
- People who follow Arab, Middle Eastern and North African live music in Paris
- Students and creatives from our schools and networks

How we reach them

Rebels' channels · artists' own audiences · community groups · school networks · the footage from each night

Evidence ladder

Paid presale
Strongest — the go/stop rule counts only these

Free reservation
Stronger

Waitlist with e-mail
Better

Interest form
Weak — free to fill in

THE NETWORK

The creator pathway starts at the pilot

1 — Discovery
Open call, schools, artists' referrals

2 — Selection
Clear criteria, a short call

3 — Briefing
Written brief, rehearsal, safety

4 — Contract and pay
Lawful contract, agreed fee, paid on time

5 — On the night
A named lead, breaks, a debrief

6 — Credits and footage
Named credits, files to keep

7 — Feedback
Written notes both ways

8 — Next opportunity
First call for the next project

Live-show artists and technicians are employees of the organiser. Filming, editing and marketing need their own treatment — to confirm.

THE TEAM

Three cofounders, three different strengths

Oscar

Founder

- Event organising and audiovisual studies
- DJ, singer, mixing, technical work
- Availability to confirm

Ahmad

Cofounder

- Singer and percussionist
- Strong Middle Eastern musical background
- Role and time: open

Gabriel

Cofounder

- GrooveBox — house DJ
- Part of Rebels Collectif
- Role and time: open

To decide together

Weekly time | **Governance** | **Money rules** | **Artistic direction** | **Membership / ownership** | **Conflicts of interest**

Rebels Collectif: what is public, what is not

Public — checked 20–21 Oct 2026

- Paris house and Afro-house DJ collective and label
- Presented by Play House and GrooveBox
- Tickets sold through Shotgun
- 2025 nights at Le Klub, L'Impasse, Titi Palacio
- No registered legal entity found

Unconfirmed — ask both founders

- Is Rebels a registered entity, and who decides for it?
- Who held the licence, paid SACEM and insured past nights?
- Real ticket numbers and prices of recent nights
- Does Rebels want a joint night at all — on what terms?
- Who represents Rebels while Gabriel represents Techonest?

COLLABORATION MODELS — FOR DISCUSSION

Three genuinely different ways to work with Rebels

	A · Rebels leads	B · Co-production	C · Techonest leads
Legal organiser	Rebels	One named partner	Techonest
Contracts and pays people	Rebels	The organiser	Techonest
Holds ticket revenue	Rebels	The organiser, then shares by contract	Techonest
Carries the risk	Rebels	Shared, as written	Techonest
Techonest gets	A fee, experience, visibility	Shared result, joint brand	Control, its own brand
Must exist first	Rebels as a legal entity	Agreement + a legal organiser	Techonest as a legal entity

In every model a Rebels person other than Gabriel — for example Play House — negotiates for Rebels. Proposal, not agreed.

PROPOSAL — NO DATE, VENUE OR ACT CONFIRMED

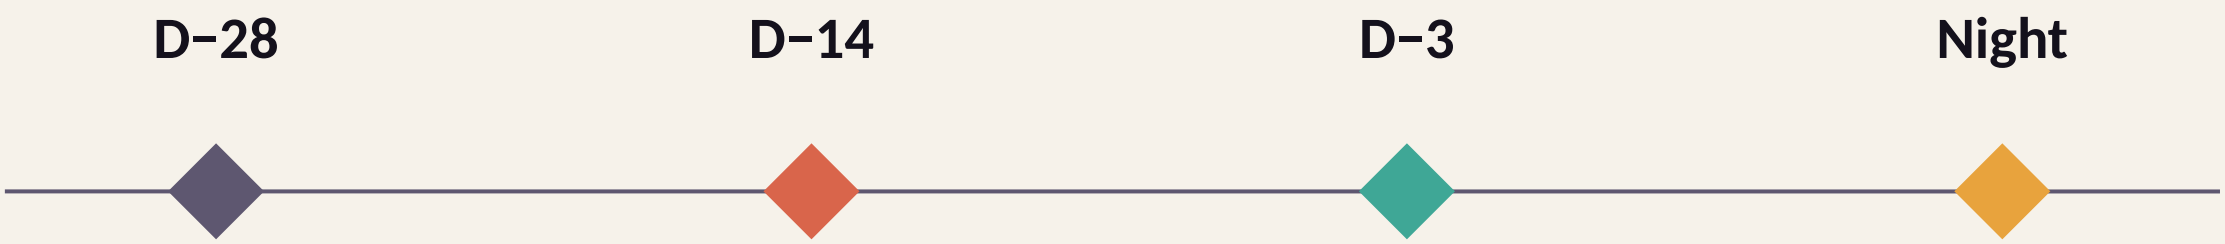

The pilot: one night, built to learn

Format	Live voice and percussion → crossover → DJ programme
Size	120–200 people, small enough to sell out
Venue needs	Own sound system and security, bar-share deal, cancellation terms
Staffing	Lean: 3 paid people + the venue's own staff
Timing	February–March 2027 (proposal)
Ticketing test	Paid presale in two price tiers

What the pilot must teach us

- Will people pay for this mix — at what price?
- What does a lawful night really cost?
- Does the creator pathway work in practice?
- Do we and Rebels work well together?

One continuation threshold, one success target

Tickets on sale

Paid presale opens, two price tiers

Continuation threshold

Paid presales ≥ 50 % of break-even — else cancel or downsize within contract terms

Success target

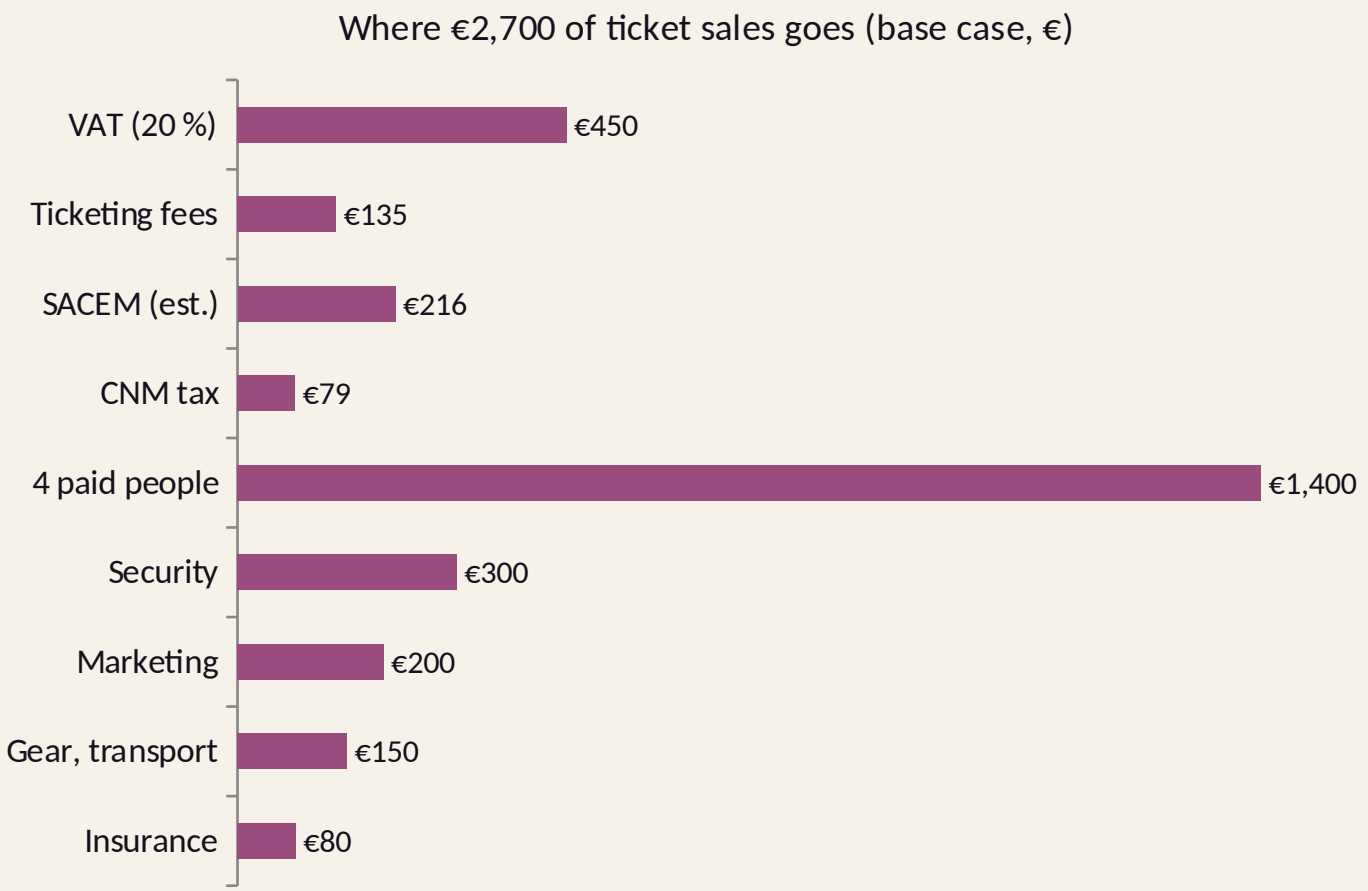

Paid presales ≥ 75 % of break-even

Final test

Contribution ≥ €0 after everyone is paid

Cancelling is not free. By D−14 about €380 is already spent (setup, part of the marketing, insurance) — plus whatever cancellation fees the venue and artist contracts allow. Those fees are a term to negotiate.

In the base case, €2,700 of tickets leaves a €310 gap

Gross ticket sales

€2,700

Net receipts after VAT, fees, rights

€1,820

Contribution after event costs

−€310

A loss. The lean pilot (venue's own sound and security, 3 paid people, 150 tickets) leaves ≈ + €237.

Four scenarios for one night

Per night, €	Cautious	Base	Strong	Lean pilot
Paid tickets × price	110 × €12	180 × €15	250 × €18	150 × €15
Gross ticket sales	1,320	2,700	4,500	2,250
VAT at 20 %	−220	−450	−750	−375
Fees, SACEM, CNM	−210	−430	−716	−358
Net receipts	**890**	**1,820**	**3,034**	**1,517**
Venue	−400	0	0	0
Paid people (≈ €350 each)	−1,050 (3)	−1,400 (4)	−1,750 (5)	−1,050 (3)
Security	−300	−300	−300	0 (venue)
Marketing, insurance, gear	−380	−430	−480	−230
Contribution	**−1,240**	**−310**	**+504**	**+237**
Break-even, paid tickets	≈ 263	≈ 211	≈ 208	≈ 127

Contribution is before setup costs and before any founder pay. Results in red are losses.

SENSITIVITY — BASE COSTS OF €2,130

Price and attendance move the result most

Break-even, paid tickets

€12	**263**
€15	**211**
€18	**176**

At 180 × €15: pay of €250 → +€90; pay of €460 → −€750; 5.5 % VAT → −€11.

CASH AND EXPOSURE — ESTIMATES

Four numbers that decide how big the pilot can be

€200

Setup before anything

Bank, visuals, admin. Creating an association is free.

€630

Cash out before the night

Base case. Ticket money may arrive only after the event — to confirm.

€2,330

Worst case, base pilot

Every contract signed and no tickets sold.

€840

Worst case, lean pilot shared 50/50

The only configuration that fits the €1,000 we have.

THE ASPIRATION, HONESTLY

€13,500 a month is ticket sales, not income

The aspiration

3 × 300 × €15

= €13,500 gross ticket sales a month, before every cost. A future goal, not a forecast.

One 300-ticket night leaves ≈ +€504 with a free venue, ≈ −€296 with an €800 hire fee. At that volume a licence is needed and the tax franchise cannot be relied on.

How money can reach founders

- Pay for real work: a cachet as performer, hours as a technician — on a lawful contract
- For Oscar: inside 964 salaried hours a year
- Never a share of the profits of an association
- A good night's surplus funds the next night

Study fees of €[____] a year ÷ net pay per night of €[____] = [__] paid nights. Realistic only after the pilot proves demand.

DECISION FRAMEWORK — NOT SETTLED

Choosing a structure: judge each option against our goals

Our goal	Association loi 1901	Partner-led first event	Company later (SAS)
Cultural mission, community	Strong fit	Partner's mission leads	Possible, less natural
Paid work for artists, technicians	Yes, as employer	Partner employs	Yes, as employer
Founder income	Pay for work only; leaders' pay limited	Paid by the partner for work	Salary or dividends
Ownership, governance	Members, no owners	Partner decides	Shareholders
Tax	Exemption not automatic	Partner's issue	Commercial taxes
Admin load	Low to medium	Lowest for us	High
Fits Oscar's titre	To confirm	Yes, as employee within 964 h	Doubtful now
Scale: series, services	Limited by tax and licence rules	Not ours	Best

Micro-entreprise is not open to Oscar on a student titre de séjour (Service-Public).

Five legal facts that shape the plan

Topic	What it means for Techonest	Confirm with
Licence	If live shows are our principal activity, we must declare before the first show. Otherwise up to 6 shows a year without.	DRAC Île-de-France
GUSO	Only for employers whose principal activity is not shows; covers live-show artists and technicians — not filming, editing, marketing.	GUSO / France Travail
Tax	An association is not automatically tax-free below €81,051: management, competition and activity mix count too.	Accountant, tax office
Oscar's work	≤ 964 salaried hours a year; no self-employment on a student card. Unpaid work is not a workaround.	Immigration lawyer
Lending workers	Profit on lending workers is banned. A defined production service may be lawful.	Labour lawyer

FROM NOW TO 2028

Three horizons: earn the right to the next one

Now

Oct – Dec 2026

- Cofounder roles and time
- Legal checks: immigration, DRAC, GUSO, accountant
- Artist and technician call
- Rebels discussion
- Demand tests up to paid presales

Pilot and first season

Jan – Jun 2027

- One lawful, lean pilot night
- Creator pathway run for real
- Settle, review, decide
- A few more nights only if targets are met

Later

2027 – 28 and beyond

- Repeatable event series
- Production or technician service, assessed separately
- Equipment only when it beats renting
- Structure for the scale

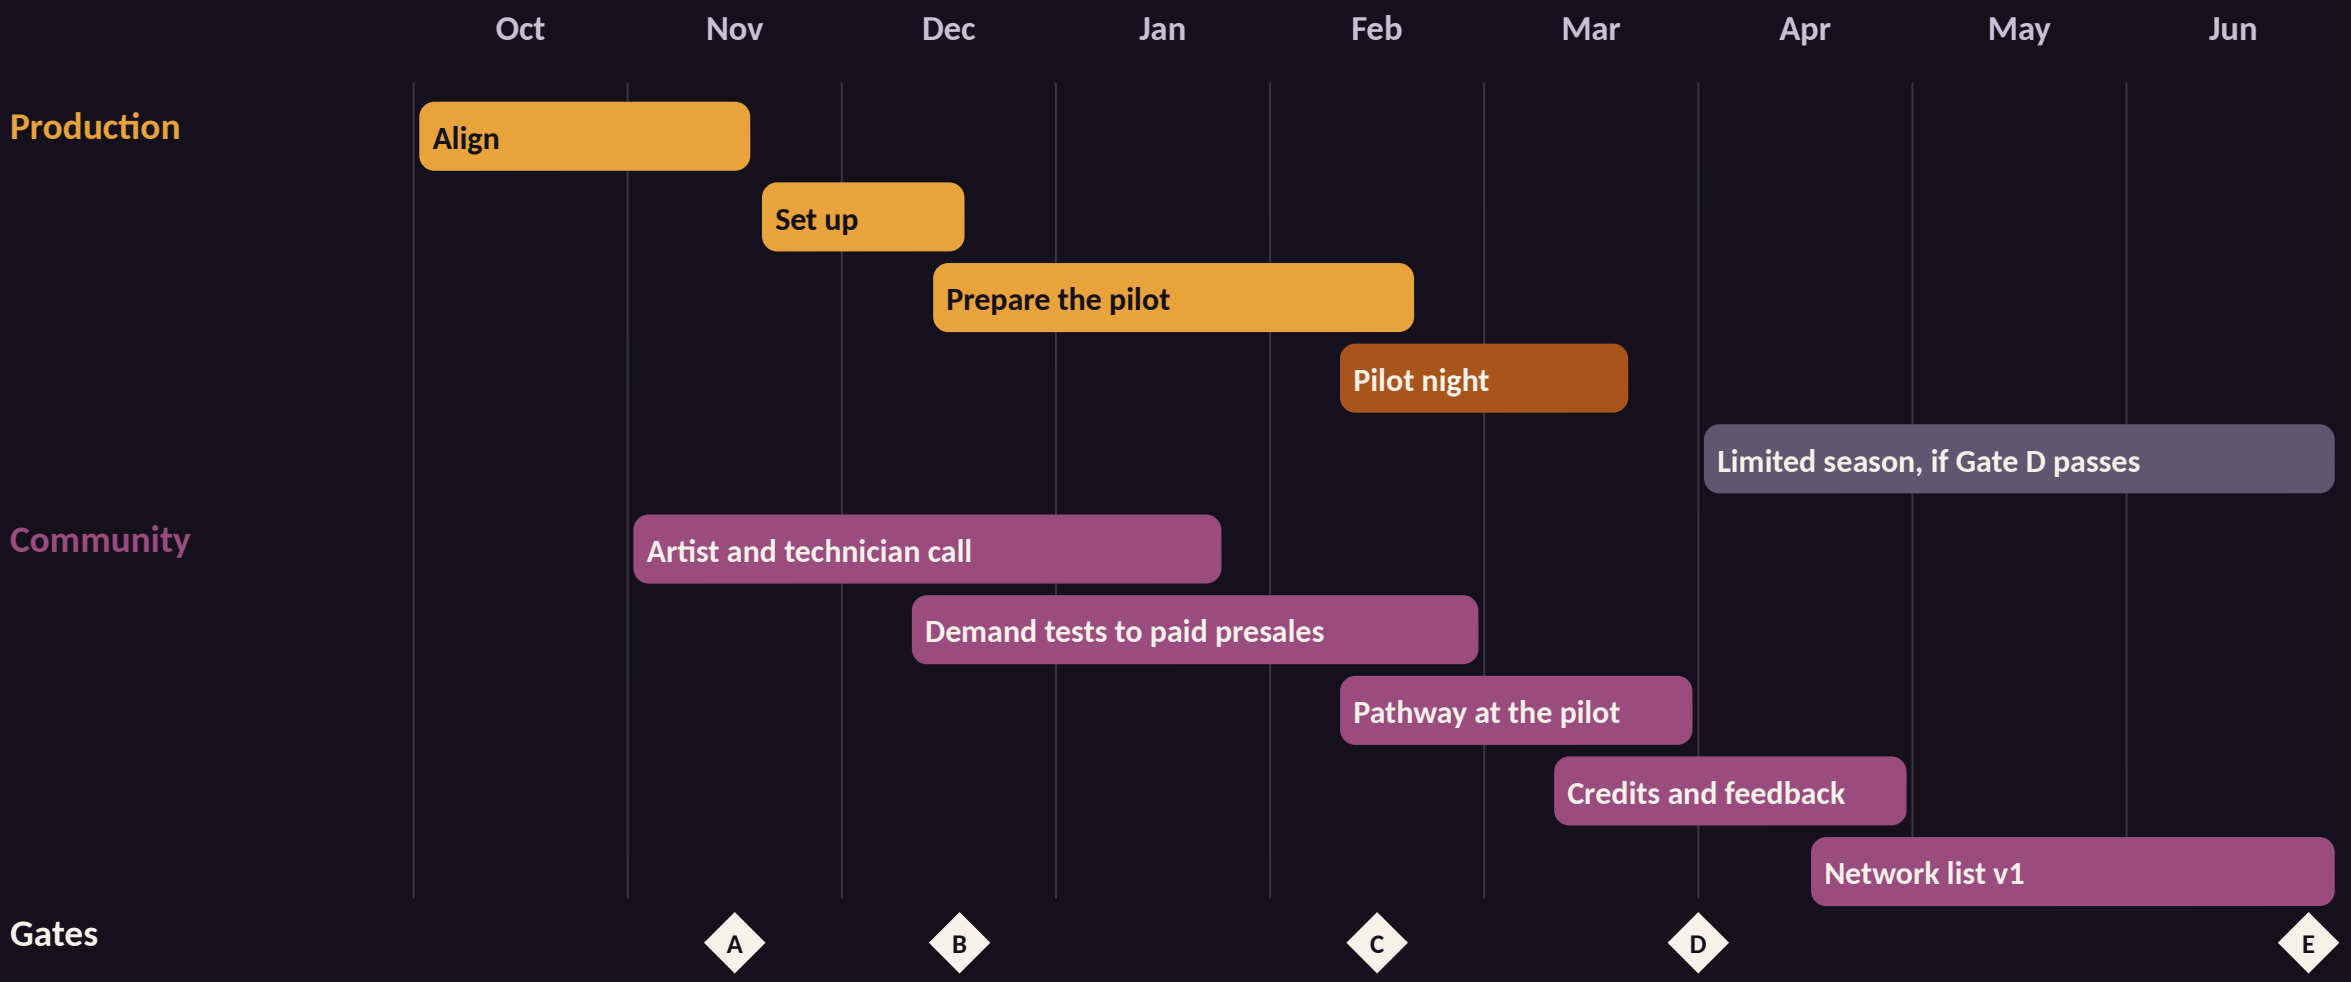

USABLE PLAN — WILL CHANGE AFTER THE FIRST MEETING

The next 90 days, phase by phase

Phase	Deliverables	Decided by	Depends on	Evidence needed	Gate
1 · Align to ≈ 19 Nov	Roles, time, decision rules written; EICAR asked	All three	Meeting held	Each states hours and roles	A · roles, structure path, Rebels model
2 · Set up to ≈ 19 Dec	Legal organiser; venue talks; quotes; artist call	[to agree]	Rebels answers; legal checks	DRAC/GUSO answer; written venue offer	B · organiser + venue offer
3 · Commit or wait to ≈ 18 Jan	Budget from quotes; agreement draft; ticketing	All three	Quotes; organiser exists	Budget within €1,000 cap	Book only if it fits

Community work runs in parallel: the artist and technician call starts in phase 2, before any event is booked.

Roadmap to June 2027: two tracks, five gates

The six risks that matter most

Risk	Likelihood	Impact	Early sign	Response
Too few paid tickets	**High**	**High**	Below the D−14 threshold	Lean set-up, small room, stop rule
No legal organiser	Medium	**High**	Nothing in place by Gate B	Choose the structure path at Gate A
Unpaid or % pay on a paid night	Medium	**High**	Pay discussed only after the night	Written fair-pay policy; contracts first
Oscar's titre de séjour	Low–medium	**High**	Hours drifting above plan	Lawyer check; track hours
Someone injured	Low	**High**	Crowding, improvised rigging	Venue contract, licensed security, insurance
Gabriel's double role	Medium	Medium	Disputes over shares or credit	Written rule; another Rebels negotiator

DECIDE TOGETHER

Seven decisions for our first meeting

1

Roles and weekly time

2

How we decide, and the conflict rule

3

Structure path to explore first

4

Rebels model to propose, and our counterpart

5

Pilot shape: size, price, €1,000 cap

6

Money rules and a fair-pay policy

7

Who leads artistic direction

Record each decision, an owner and a date before we leave the room.

OUR COMMITMENT

Before we leave: who does what, by when

Task	Owner	By
Ask Rebels: legal status, decision-makers, ticket history, interest	[ ]	[ ]
Book an immigration-law check on board role and paid hours	Oscar	[ ]
Ask EICAR in writing about equipment and student participation	Oscar	[ ]
Ask DRAC and GUSO which rules apply to our model	[ ]	[ ]
Draft the fair-pay policy and the artist and technician call	[ ]	[ ]
Shortlist three venues that fit the lean configuration	[ ]	[ ]

We meet again

[date]

90 minutes, to close Gate A: roles, structure path, Rebels model.

Appendix

A1 Assumptions and open questions · A2–A5 Legal detail · A6 Financial inputs · A7 Sources · A8 Change log

A1 · What is confirmed, proposed, estimated or to verify

Confirmed	Three agreed cofounders (Oscar, Gabriel, Ahmad); student titre de séjour; up to €1,000 cash; Rebels' public profile; legal rules cited in A2–A6
Founder goals	Culturally mixed nights; fairly paid work for creators; help with study fees; a culture or entertainment titre for 2027–28; 3 nights a month at 300 × €15 one day
Proposals	Lean pilot; go / stop thresholds; collaboration models A–C; fair-pay policy; spend limit €100; conflict rule for Gabriel
Estimates	Pay ≈ €350 per person; SACEM ≈ 8 %; ticketing ≈ 5 %; security €300; marketing, gear, insurance; attendance and prices
To verify	Oscar's name, schedule and exact titre; Rebels' legal status and interest; venue terms; school equipment permission; VAT rate; CNM scope for DJ nights; GUSO eligibility

A2 · Oscar’s residence status and work

Question	Rule (official source)	Source
Salaried work now	Up to 964 h a year, as an employee; the employer declares the hire to the préfecture first	Service-Public F2713
Self-employment now	Not allowed on a student card — no micro-entreprise	F2713; F36612
Going over 964 h	Can lead to withdrawal or refusal to renew the titre. Unpaid work is not a workaround	F2713
Talent card, artistic (2027–28 goal)	≥ 70 % of full-time gross SMIC a month (€1,306.91), ≥ 51 % from the artistic activity; up to 4 years	F16922
After a master’s degree	1-year card to look for work or create a company linked to the studies	F17319

To confirm: would contracts with Techonest or Rebels count toward the talent card’s employment condition?

LEGAL DETAIL — TO CONFIRM WITH DRAC ÎLE-DE-FRANCE AND GUSO

A3 · Live-performance rules: licence, GUSO, amateurs

Topic	Rule	Source
Licence	Principal activity = shows → declare ≥ 1 month before the first show. Otherwise ≤ 6 shows a year without; from the 7th, declare	Culture, fiche 4.2
Who can declare	Someone with bac+2, 6 months' live-show experience, or 125 h of training	Culture, fiches notices
GUSO	Only employers whose principal activity is not shows. Live-show artists (cachet) and technicians (hours)	guso.fr
Other roles	Filming, editing, photo, marketing: not GUSO — employment or a genuine independent invoice	To confirm
Amateurs	Unpaid only with a convention, a declaration and caps. Technicians cannot be amateurs	Culture

Consequence: an association created to organise events may need the licence from its first show and may not be able to use GUSO.

A4 · Association tax and paying founders

Disinterested management	Run voluntarily; no distribution of profits in any form; leaders' pay ≤ ¾ SMIC each, unless resources exceed €200,000
Competition with businesses	Ticketed nights compete with clubs: the 4P test (product, public, price, advertising) decides
Franchise	Only if non-profit activities stay significantly predominant and lucrative receipts ≤ €81,051 in 2026
Charity or support events	Receipts of up to 6 such events a year are not counted — to confirm whether ours qualify
Pay vs profit	A fair wage for real work is fine; a share of the surplus is not

Sources: BOFiP BOI-IS-CHAMP-10-50-10-20 and -20-20; BOFiP actualité 5 Aug 2026 (threshold).

LEGAL DETAIL — TO CONFIRM PER VENUE

A5 · Ticket taxes, music rights, safety, equipment

Topic	Rule	Source
VAT on tickets	5.5 % for concerts; normal rate in drinks venues unless the venue holds a category 1 licence and a paid artist plays original music	BOFiP
CNM tax	3.5 % of receipts excl. VAT, owed by whoever holds the ticketing; DJ nights to confirm	cnm.fr
SACEM	A percentage of receipts; cheaper if declared in advance; the venue may already hold a contract	Get a quote
Security	CNAPS-licensed agents; a specific card above 300 people	Décret 2022-592
Insurance, equipment	Organiser liability insurance; school gear only with written permission for commercial use	Venue, EICAR

A6 · Financial inputs and what still needs a quote

Input	Value used	Type	To replace with
VAT	20 % base; 5.5 % if eligible	Legal rate	Venue licence, accountant
CNM tax	3.5 % of receipts excl. VAT	Legal rate	CNM: do DJ nights count?
SACEM	≈ 8 % of gross	Placeholder	SACEM quote
Ticketing fees	≈ 5 % of gross	Estimate	Platform terms, payout timing
Paid person, employer cost	≈ €350 (range €250–460)	Estimate	Payroll simulation
Security	€300 or venue's own	Estimate	Venue, two quotes
Marketing · insurance · gear	€150–250 · €80 · €0–150	Estimate	Quotes
Setup	≈ €200	Estimate	Bank offers

CHANGE LOG

A8 · What changed from the previous deck

Narrative	Built around the nights and the network, with a night journey and a creator pathway
Law	Licence, GUSO, association tax and founder pay corrected against primary sources
Money	Rebuilt model: base case is now a loss of €310; cash, exposure and income separated
Go / stop	One D−14 continuation threshold and one D−3 success target; cancellation costs explicit
Design	Fewer tables and cards, two diagrams, native charts, the crowded numbers slide fixed
